

## Population of Churchill County

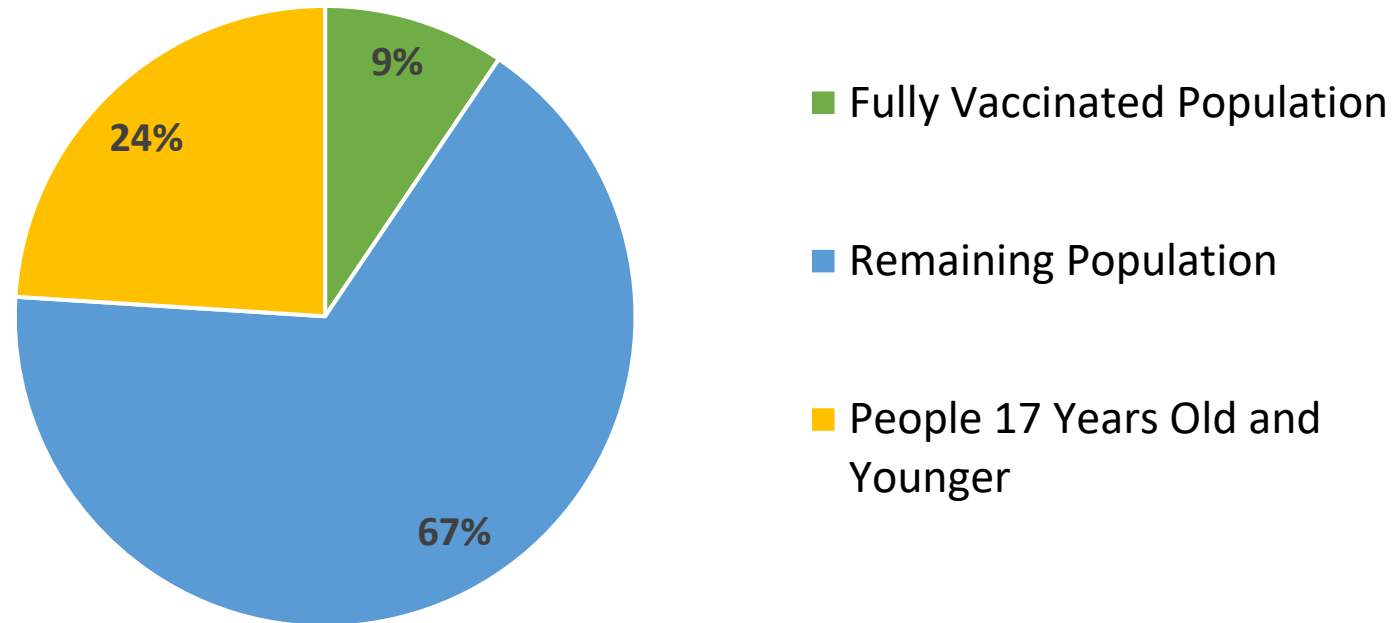

Figure 4. Population of Churchill County that has been fully vaccinated. Combining the number of residents that received Moderna second dose and Janssen single dose gives a total of 2,447 fully vaccinated residents. Also, 24% of Churchill County's population consists of youth 17 years old and younger (NV DHHS, 2019). They do not qualify to receive the Moderna or Janssen vaccine, currently. Therefore, they are excluded from the remaining population of residents eligible to receive the vaccine as of April 2, 2021.

Nevada Department of Health and Human Services [NV DHHS]. (2019). Nevada State Health Needs Assessment.

## Breakdown of Total Doses Administered

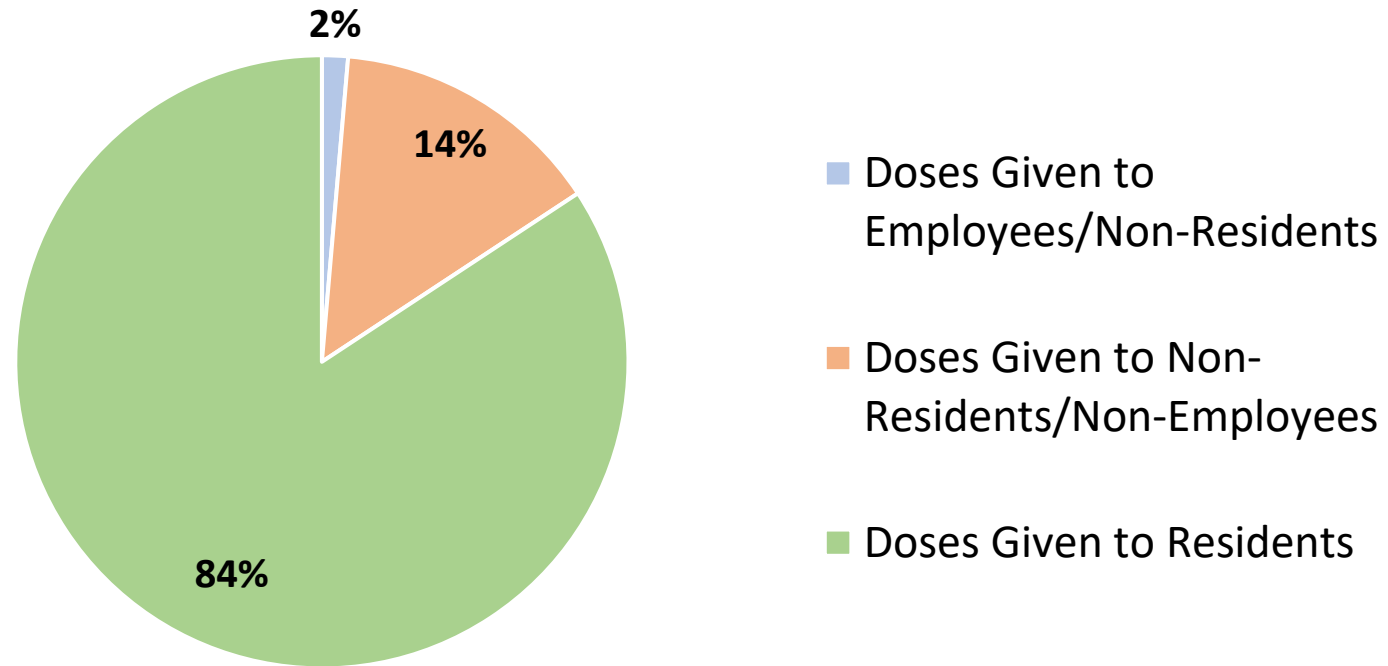

Figure 3. Breakdown of the total doses administered by Churchill County Public Health.
